GC-CST4-SEMINAR ON RECENT TRENDS IN STOCK MARKET AND TRADING OPERATIONS

Max. Marks: 50

Internal: 50

Pass: 40%

Credits: 02

Objectives: To enable students to explore and analyze the latest developments in stock markets and trading practices, develop critical insights into emerging trends, and enhance their research and presentation skills in the context of modern financial markets.

Course Outcomes (COs):

CO1: Recall and recognize recent trends and innovations in stock markets and trading operations

CO2: Understand the basic impact of market developments on trading practices

CO3: Comprehend and summarize assigned topics in written assignments

CO4: Present findings clearly and accurately using PowerPoint

Mode and Evaluation:

The seminar will be conducted online/offline, where students are required to actively engage in research and submit their assignments electronically. Each student will be assigned a specific topic related to recent trends in stock markets and trading operations. Students must submit a written assignment summarizing their topic and prepare a professional PowerPoint presentation. Evaluation will be entirely internal, based on the accuracy, clarity, and completeness of the assignment and the effectiveness of the online presentation, emphasizing comprehension and clear communication of the subject matter.

Assessment Components:

1. **Report / Written Submission:** 20 Marks
2. **Presentation / Seminar Delivery:** 10 Marks
3. **Participation and Discussion (including Q&A):** 20 Marks
